

## Lake County General Health District

**FOR IMMEDIATE RELEASE**  
**March 6, 2015**

**CONTACT: Lauren Henderson, (440) 350-2604**  
**LAKE COUNTY GENERAL HEALTH DISTRICT**

### **TAKE THE SURVEY AND LET YOUR VOICE BE HEARD ABOUT THE HEALTH OF LAKE COUNTY!**

All Lake County residents are invited to participate in a survey to determine your thoughts on whether the community is safe, a good place to raise children, a good place to grow old and more. "Lake County is once again out to improve the types and quality of health programs it offers, and who better to ask than its own residents," commented Lauren Henderson, Public Health Accreditation Coordinator. The information will help to guide the Lake County Community Health Improvement Planning (CHIP) Committee, which includes several local agencies as well as Lake County residents, identify key strengths and areas for improvement. You can take the survey by visiting the following links:

Quality of Life Survey English: <https://www.surveymonkey.com/s/2015LakeCHIP>

Quality of Life Survey Spanish: <https://www.surveymonkey.com/s/SpanishLakeQOL>

The survey is 12 questions and takes two to three minutes to complete. "On behalf of the Lake County CHIP Committee, we thank you in advance for taking the Lake County Quality of Life Survey," stated Henderson. "We are grateful for your participation toward making a difference in our community."

For more information, please call Lauren Henderson at (440) 350-2604.
